

# Congress: We need a worker-friendly Farm Bill TODAY!

Even though workers like me are key to every single part of the Farm Bill—from farmworkers to meat processing workers and grocery workers—the bill doesn't include us. I'm asking you to take action TODAY to make workers like me a central part of this investment in our food system by:

Supporting a resilient food supply chain through fair labor standards

Supporting workers with funding for the Farm and Food Worker Relief grant program

Ending hunger through full funding for SNAP

Ensuring that online grocery and delivery services support good jobs and fair pay

Protecting meat processing workers through line speed requirements

***Our food supply doesn't work without US—put workers in the Farm Bill!***

# Congress: Take action TODAY—workers like me belong in the Farm Bill!
